

MANAGED PROCUREMENT SERVICES

Solving **it** forward.

TCGi designs, transforms, and runs procurement functions for global enterprises. TCGi's Managed Procurement Service (MPS) combines procurements and supply market expertise, process excellence, and digital technologies to optimize spend across all categories. TCGi provides consulting, outsourcing, and managed services across the procurement operating model. Our offerings focus on four main areas:

- ⇒ Procurement strategy and transformation
- ⇒ Sourcing and supplier management
- ⇒ Procurement operations
- ⇒ Category Management

Key Benefits of TCGi Managed Procurement Service

- ⇒ Streamlined procurement processes with our end-to-end solutions
- ⇒ Optimized buying solutions using comprehensive supplier market intelligence across indirect and direct categories
- ⇒ End-to-end category and commodity management, from strategy development to strategic sourcing project execution, assisted buying, and supplier management
- ⇒ Increased number of vendor payment options and consolidated payment process
- ⇒ Conversion of spend to Tier 1 diverse

TCGi Delivers Results

Comprehensive Spend Analysis

Comprehensive supply market intelligence and a deep dive into company buying patterns drives insights and competitive advantage.

Centralized Processes

Policies, contracts, practices, and processes are centralized to allow for efficient deployment of resources.

Elimination of Redundancies

Redundancies in vendor relationships and processes are identified and eliminated or streamlined for greater efficiency.
